

Email Submission: Josef Zybert

COMMENTS: I am disappointed with your attitude toward the health and well-being of the Australian Community, please refer to the complaint in the Complaints textbox.

COMPLAINTS: It has come to my attention that OGTR intends to deregulate a number of aspects related to Gene Technology. I oppose any attempts to lessen or eliminate assessment and regulation and licensing of all GM techniques and methods and technology. I view resistance to increasing regulation of GM methods and products as being against the National and Social interest.
