Annual Report for DIR062/2005 for the year 8 August 2009 to 7 August 2010

I refer to the requirements of the above licence (*viz.* Condition No. 20), to provide the OGTR with an annual report within 90 days of the licence issue date anniversary.

During the period of 8 August 2009 to 7 August 2010, commercial quantities of approximately 1,965 ha of cotton-containing Liberty Link technology were planted in Australia. Seed production plantings equalled 50.4 ha and small-scale field trials of 1.17 ha total were conducted by CSIRO.

During the reporting period, no adverse effects were observed or reported to us as a result of dealings with Liberty Link or LLCotton25/Bollgard II cotton under licence DIR062/2005.

Yours sincerely,
Bayer CropScience
