Attention: Application Entry Point

Dear Sir/Madam,

Annual Report for DIR062/2005 for the year 8 August 2010 to 7 August 2011

I refer to the requirements of the above licence (viz. Condition No. 20), to provide the OGTR with an annual report within 90 days of the licence issue date anniversary.

During the period of 8 August 2010 to 7 August 2011, commercial quantities of approximately 2,635 green ha (single row configuration) of cotton containing Liberty Link technology were planted in Australia. Seed production plantings equalled 19.6 green ha and small-scale field trials of 1.27 green ha were conducted by CSIRO.

During the reporting period, no adverse effects were observed or reported to us as a result of dealings with Liberty Link or LLCotton25/Bollgard II cotton under licence DIR062/2005.

Yours sincerely,
Bayer CropScience
