I very much do not agree to your future work on Gm and so DO NOT AGREE with what you are planing to do with out testing and proving how very WRONG you are I dare to say you so called Scientist will one day have a wake up call and see how wrong this is to our food chain.

We are a good country we could be making millions in Money \$ GM FREE we are so stupid to want GM Crops and food. the Politicians have no Brains or concern for peop..... to allow Australia to grow these crops...

Cancer an other illnesses are due to this bad technology

I hope you come to your senses and produce good healthy food ..... We were not ill when I grew up now everyone is Ill with some problem..

Stop now look and see what you are doing is for the good of man Healthy Wholesome eatable ...

Why do somany children carry Eppy Pens at school we are doing such wrong with food now ....
