

APPENDIX F: ARIA VALUES FOR 1999 STATISTICAL LOCAL AREAS

Note:

SLA values are the average of all 1 km grid-cells within the SLA. Grid-cells within a service centre (based on ABS Urban Centre boundaries) were given the values of that centre (see 7.4.2 and 7.6 above). However a SLA generally regarded as part of a town or city may have a different ARIA score from the larger centre if the SLA contains grid-cells from outside the Urban Centre boundary.

ARIA scores do not exist for the 7 SLAs that are off-shore and migratory areas. These SLAs do not have a physical area.
