**Accreditation Number:** ACCR 034

**SCOPE OF THE REPORT**

This report addresses the annual reporting condition of the DIR173 commercial licence covering MON88701 cotton technology issued to Monsanto Australia Proprietary Limited by the Office of the Gene Technology Regulator.

This report details compliance with general and specific conditions of Sections 2 to 3 of the DIR173 licence as issued to Monsanto Australia Proprietary Limited on 15 October 2020.

This report covers the period from 1 July 2023 to 30 June 2024, including the 2023/24 cotton growing season.

**SECTION 2. LICENCE CONDITIONS AND OBLIGATIONS****Monsanto Australia confirms and acknowledges that:**

- No dealings were conducted with GMOs under this licence that are otherwise prohibited as a result of the operation of State legislation declaring areas to be GM, GM free, or both, for marketing purposes.
- DIR173 has not been suspended, cancelled or surrendered.
- Monsanto Australia Proprietary Limited (Monsanto) remains the holder of the licence.
- Any person, including the licence holder, may conduct any permitted dealings with the GMOs as covered by the licence.
- The licence allows for dealings with GMOs to be conducted in all areas of Australia.
- The only dealings with GMOs under this licence were those with the GMOs described in DIR173 Licence.
- Monsanto acknowledges that if the conditions of any prior licence authorising dealings with the GMO are inconsistent with the conditions of this licence, the conditions of this licence will prevail.
- At all times, Monsanto remained an accredited organization and complied with the Act and with its instrument of accreditation.
- During the reporting period, Monsanto Australia Ltd did not receive a relevant conviction occurring after the commencement of this licence; nor was there any revocation or suspension of a licence or permit held by Monsanto Australia Ltd under a law of the Australian Government, a State or foreign country, being a law relating to the health and safety of people or the environment; or any event or circumstance occurring after the commencement of this licence that would affect the capacity of Monsanto to meet the conditions of the DIR173 licence. Monsanto acknowledges that it must provide information related to its ongoing suitability to hold a licence, if requested, within a period stipulated by the Regulator.
- Monsanto Australia Proprietary Limited informed all persons covered by the DIR173 licence of the obligations imposed on them as a result of the conditions of the licence. This was primarily achieved through the Monsanto accreditation program and contractual obligations, which includes information on regulatory obligations as well as management of the crop. Accreditation requires all persons having management responsibility for Bollgard 3 cotton crops to undergo training.
- Monsanto recognizes that any persons covered by the DIR173 licence, to whom a condition of the licence applies, must be informed of particular conditions and any variations, the cancellation, suspension or surrender of the licence. This is achieved through training and contractual obligations.
- During the reporting period, Monsanto Australia Ltd did not become aware of any risks to the health and safety of people, or to the environment, associated with the dealings authorised under DIR173; or of any contraventions of the licence by a person covered by the licence; or any unintended effects of the dealings authorised by the licence. Monsanto acknowledges that should it be required to inform the regulator of additional information under these licence conditions it must do so without delay.
- Monsanto acknowledges that the persons covered by the licence must not deal with the GMOs except as expressly permitted by this licence. Monsanto acknowledges that if a person authorized by this licence to deal with GMOs and a condition of this licence applies to the dealing by that person, the person must allow the Regulator, or a person authorized by the Regulator, to enter the premises where the dealing is being undertaken, for the purposes of auditing or monitoring the dealing.

**SECTION 3. GROWING THE GMOS****3.1 GMOs covered by this licence**

The only dealings with GMOs under this licence were those with the GMOs described in the DIR173 Licence.

**3.2 Permitted dealings**

Plantings of cotton containing only MON88701 are undertaken under a Technology User Agreement (TUA), which sets out the conditions for planting and growing a cotton crop containing the MON88701 technology. To be eligible to sign such an agreement, a grower is required to attend an accreditation and training program.

**3.3 Trial/Research Crop Volumes by State**

Cotton containing only MON88701 was not grown for trial purposes.

State	Trial/Research MON88701 Area (Ha)

**SCOPE OF THE REPORT**

This report addresses the annual reporting condition and details compliance with conditions of Sections 2 to 3 of the DIR145 commercial licence as issued to Monsanto Australia Proprietary Limited by the Office of the Gene Technology Regulator on 20 December 2016.

This report covers the period from 1 July 2023 to 30 June 2024, including the 2023/24 cotton planting season.

**SECTION 2. REPORTING REQUIREMENTS**

- a) During the reporting period, Monsanto Australia Pty Ltd did not become aware of any risks to the health and safety of people, or to the environment, associated with the dealings authorised under DIR145; or of any contraventions of the licence by a person covered by the licence; or any unintended effects of the dealings authorised by the licence. Monsanto acknowledges that should it be required to inform the regulator of additional information under these licence conditions it must do so without delay. At all times, Monsanto remained an accredited organization and complied with the Act and with its instrument of accreditation.
- b) A total of 32,669.4 ha of XtendFlex™ cotton was grown for commercial purposes.
- c) A total of 12.5 ha of XtendFlex™ cotton was grown for trial purposes.

**SCOPE OF THE REPORT**

This report addresses the annual reporting condition of the DIR127 commercial licence covering TruFlex™ Roundup Ready® canola trait issued to Monsanto Australia Proprietary Limited by the Office of the Gene Technology Regulator.

This report details compliance with general and specific conditions of Sections 2 to 3 of the DIR127 licence as issued to Monsanto Australia Proprietary Limited on 21 November 2014.

This report covers the period between the 1 July 2023 and 30 June 2024.

**SECTION 2. LICENCE CONDITIONS AND OBLIGATIONS**

**Authorised Dealings**

No dealings were conducted with GMOs under this licence that are otherwise prohibited as a result of the operation of State legislation declaring areas to be GM, GM free, or both, for marketing purposes.

**Duration of Licence**

DIR127 has not been suspended, cancelled or surrendered.

**Holder of Licence**

Monsanto Australia Proprietary Limited (Monsanto) remains the holder of the licence.

**Project Supervisor**

The project supervisor is [REDACTED]

**Persons covered by this GMO Licence**

Monsanto acknowledges that any person, including the licence holder, may conduct any permitted dealings with the GMOs as covered by the licence.

**Dealings with GMOs as authorized by this Licence**

All dealings with the GMOs are permitted under this licence.

**Location**

The licence allows for dealings with GMOs to be conducted in all areas of Australia.

**GMOs covered by this licence**

The only dealings with GMOs under this licence were those with the GMOs described in DIR127 Licence.

**Licence Conditions**

Monsanto acknowledges that if the conditions of any prior licence authorising dealings with the GMO are inconsistent with the conditions of this licence, the conditions of this licence will prevail.

**Remaining an Accredited organization**

At all times, Monsanto remained an accredited organization and complied with the Act and with its instrument of accreditation.

**Applicant to notify of circumstances that might affect suitability**

During the reporting period, Monsanto Australia Ltd did not receive a relevant conviction occurring after the commencement of this licence; nor was there any revocation or suspension of a licence or permit held by Monsanto Australia Ltd under a law of the Australian Government, a State or foreign country, being a law relating to the health and safety of people or the environment; or any event or circumstance occurring after the commencement of this licence that would affect the capacity of Monsanto to meet the conditions of the DIR127 licence. Monsanto acknowledges that it must provide information related to its ongoing suitability to hold a licence, if requested, within a time period stipulated by the Regulator.

**Informing people of their obligations**

Monsanto Australia Proprietary Limited informed all persons covered by the DIR127 licence of the obligations imposed on them as a result of the conditions of the licence. Monsanto recognizes that any persons covered by the DIR127 licence, to whom a particular condition of the licence applies, must be informed of particular conditions and any variations, the cancellation, suspension or surrender of the licence. This is achieved through training and contractual obligations.

**Applicant to notify of circumstances that might affect the risk assessment**

During the reporting period, Monsanto Australia Ltd did not become aware of any risks to the health and safety of people, or to the environment, associated with the dealings authorised under DIR127; or of any contraventions of the licence by a person covered by the licence; or any unintended effects of the dealings authorised by the licence.

Monsanto acknowledges that should it be required to inform the regulator of additional information under these licence conditions it must do so without delay.

**Persons covered by the licence**

Monsanto acknowledges that the persons covered by the licence must not deal with the GMOs except as expressly permitted by this licence.

Monsanto acknowledges that if a person authorized by this licence to deal with GMOs and a particular condition of this licence applies to the dealing by that person, the person must allow the Regulator, or a person authorized by the Regulator, to enter the premises where the dealing is being undertaken, for the purposes of auditing or monitoring the dealing.

**SECTION 3. GROWING THE GMOS**

**3.1 GMOs covered by this licence**

The only dealings with GMOs under this licence were those described in the DIR127 Licence.

**3.2 Permitted dealings**

Planting of TruFlex Roundup ready canola was undertaken using Site and Grower Agreements which set out the conditions for planting and growing a TruFlex Roundup Ready crop.

**SCOPE OF THE REPORT**

This report addresses the annual reporting condition of the DIR124 commercial licence covering Bollgard® 3 and Bollgard® 3 Roundup Ready® Flex cotton technology issued to Monsanto Australia Proprietary Limited by the Office of the Gene Technology Regulator.

This report details compliance with general and specific conditions of Sections 2 to 3 of the DIR124 licence as issued to Monsanto Australia Proprietary Limited on 19 June 2014.

This report covers the period from 1 July 2023 to 30 June 2024, including the 2023/24 cotton planting season.

## **SECTION 2. LICENCE CONDITIONS AND OBLIGATIONS**

### **Condition 3. Authorised Dealings**

No dealings were conducted with GMOs under this licence that are otherwise prohibited as a result of the operation of State legislation declaring areas to be GM, GM free, or both, for marketing purposes.

### **Condition 4. Duration of Licence**

DIR124 has not been suspended, cancelled or surrendered.

### **Condition 5. Holder of Licence**

Monsanto Australia Proprietary Limited (Monsanto) remains the holder of the licence.

### **Condition 6. Project Supervisor**

The project supervisor is [REDACTED]

### **Condition 7. Persons covered by this GMO Licence**

Monsanto acknowledges that any person, including the licence holder, may conduct any permitted dealings with the GMOs as covered by the licence.

### **Condition 8. Dealings with GMOs as authorized by this Licence**

All dealings with the GMOs are permitted under this licence.

### **Condition 9. Location**

The licence allows for dealings with GMOs to be conducted in all areas of Australia.

### **Condition 10. GMOs covered by this licence**

The only dealings with GMOs under this licence were those with the GMOs described in DIR124 Licence.

### **Condition 11. Licence Conditions**

Monsanto acknowledges that if the conditions of any prior licence authorising dealings with the GMO are inconsistent with the conditions of this licence, the conditions of this licence will prevail.

### **Condition 12. Remaining an Accredited organization**

At all times, Monsanto remained an accredited organization and complied with the Act and with its instrument of accreditation.

### **Condition 13. Applicant to notify of circumstances that might affect suitability**

During the reporting period, Monsanto Australia Ltd did not receive a relevant conviction occurring after the commencement of this licence; nor was there any revocation or suspension of a licence or permit held by Monsanto Australia Ltd under a law of the Australian Government, a State or foreign country, being a law relating to the health and safety of people or the environment; or any event or circumstance occurring after the commencement of this licence that would affect the capacity of Monsanto to meet the conditions of the DIR124 licence. Monsanto acknowledges that it must provide information related to its ongoing suitability to hold a licence, if requested, within a period stipulated by the Regulator.

### **Condition 14. Informing people of their obligations**

Monsanto Australia Proprietary Limited informed all persons covered by the DIR124 licence of the obligations imposed on them as a result of the conditions of the licence. This was primarily achieved through the Monsanto accreditation program and contractual obligations, which includes information on regulatory obligations as well as management of the crop. Accreditation requires all persons having management responsibility for Bollgard 3 cotton crops to undergo training.

Monsanto recognizes that any persons covered by the DIR124 licence, to whom a condition of the licence applies, must be informed of particular conditions and any variations, the cancellation, suspension or surrender of the licence. This is achieved through training and contractual obligations.

**Conditions 15 - 17. Applicant to notify of circumstances that might affect the risk assessment**

During the reporting period, Monsanto Australia Ltd did not become aware of any risks to the health and safety of people, or to the environment, associated with the dealings authorised under DIR124; or of any contraventions of the licence by a person covered by the licence; or any unintended effects of the dealings authorised by the licence. Monsanto acknowledges that should it be required to inform the regulator of additional information under these licence conditions it must do so without delay.

**Conditions 18 and 19. Persons covered by the licence**

Monsanto acknowledges that the persons covered by the licence must not deal with the GMOs except as expressly permitted by this licence. Monsanto acknowledges that if a person authorized by this licence to deal with GMOs and a condition of this licence applies to the dealing by that person, the person must allow the Regulator, or a person authorized by the Regulator, to enter the premises where the dealing is being undertaken, for the purposes of auditing or monitoring the dealing.

**SECTION 3. GROWING THE GMOS**

**3.1 GMOs covered by this licence**

The only dealings with GMOs under this licence were those with the GMOs described in the DIR124 Licence.

**3.2 Permitted dealings**

Plantings of Bollgard 3 were undertaken under a Technology User Agreement (TUA), which sets out the conditions for planting and growing a cotton crop containing Bollgard 3 technology. To be eligible to sign such an agreement, a grower is required to attend an accreditation and training program. In the 2023/24 season, all Bollgard 3 cotton planted was managed under the Bollgard 3 RMP.

**SECTION 1. LICENCE HOLDER DETAILS**

**Name:** Monsanto Australia Proprietary Limited  
**Address:** Level 1, 8 Redfern Rd Hawthorn East, VIC 3123  
**Telephone:** [REDACTED]  
**Contact email:** [REDACTED]  
**Accreditation Number:** ACCR 034/2002

**SCOPE OF THE REPORT**

This report addresses the annual reporting condition of the DIR124 commercial licence covering Bollgard® 3 and Bollgard® 3 Roundup Ready® Flex cotton technology issued to Monsanto Australia Proprietary Limited by the Office of the Gene Technology Regulator.

This report details compliance with general and specific conditions of Sections 2 to 3 of the DIR124 licence as issued to Monsanto Australia Proprietary Limited on 19 June 2014.

This report covers the period from 1 July 2021 to 30 June 2022, including the 2021/22 cotton planting season.

## **SECTION 2. LICENCE CONDITIONS AND OBLIGATIONS**

### **Condition 3. Authorised Dealings**

No dealings were conducted with GMOs under this licence that are otherwise prohibited as a result of the operation of State legislation declaring areas to be GM, GM free, or both, for marketing purposes.

### **Condition 4. Duration of Licence**

DIR124 has not been suspended, cancelled or surrendered.

### **Condition 5. Holder of Licence**

Monsanto Australia Proprietary Limited (Monsanto) remains the holder of the licence.

### **Condition 6. Project Supervisor**

The project supervisor is [REDACTED].

### **Condition 7. Persons covered by this GMO Licence**

Monsanto acknowledges that any person, including the licence holder, may conduct any permitted dealings with the GMOs as covered by the licence.

### **Condition 8. Dealings with GMOs as authorized by this Licence**

All dealings with the GMOs are permitted under this licence.

### **Condition 9. Location**

The licence allows for dealings with GMOs to be conducted in all areas of Australia.

### **Condition 10. GMOs covered by this licence**

The only dealings with GMOs under this licence were those with the GMOs described in DIR124 Licence.

### **Condition 11. Licence Conditions**

Monsanto acknowledges that if the conditions of any prior licence authorising dealings with the GMO are inconsistent with the conditions of this licence, the conditions of this licence will prevail.

### **Condition 12. Remaining an Accredited organization**

At all times, Monsanto remained an accredited organization and complied with the Act and with its instrument of accreditation.

### **Condition 13. Applicant to notify of circumstances that might affect suitability**

During the reporting period, Monsanto Australia Ltd did not receive a relevant conviction occurring after the commencement of this licence; nor was there any revocation or suspension of a licence or permit held by Monsanto Australia Ltd under a law of the Australian Government, a State or foreign country, being a law relating to the health and safety of people or the environment; or any event or circumstance occurring after the commencement of this licence that would affect the capacity of Monsanto to meet the conditions of the DIR124 licence. Monsanto acknowledges that it must provide information related to its ongoing suitability to hold a licence, if requested, within a period stipulated by the Regulator.

### **Condition 14. Informing people of their obligations**

Monsanto Australia Proprietary Limited informed all persons covered by the DIR124 licence of the obligations imposed on them as a result of the conditions of the licence. This was primarily achieved through the Monsanto accreditation program and contractual obligations, which includes information on regulatory obligations as well as management of the crop. Accreditation requires all persons having management responsibility for Bollgard 3 cotton crops to undergo training.

Monsanto recognizes that any persons covered by the DIR124 licence, to whom a condition of the licence applies, must be informed of particular conditions and any variations, the cancellation, suspension or surrender of the licence. This is achieved through training and contractual obligations.

**Conditions 15 - 17. Applicant to notify of circumstances that might affect the risk assessment**

During the reporting period, Monsanto Australia Ltd did not become aware of any risks to the health and safety of people, or to the environment, associated with the dealings authorised under DIR124; or of any contraventions of the licence by a person covered by the licence; or any unintended effects of the dealings authorised by the licence. Monsanto acknowledges that should it be required to inform the regulator of additional information under these licence conditions it must do so without delay.

**Conditions 18 and 19. Persons covered by the licence**

Monsanto acknowledges that the persons covered by the licence must not deal with the GMOs except as expressly permitted by this licence. Monsanto acknowledges that if a person authorized by this licence to deal with GMOs and a condition of this licence applies to the dealing by that person, the person must allow the Regulator, or a person authorized by the Regulator, to enter the premises where the dealing is being undertaken, for the purposes of auditing or monitoring the dealing.

**SECTION 3. GROWING THE GMOS**

**3.1 GMOs covered by this licence**

The only dealings with GMOs under this licence were those with the GMOs described in the DIR124 Licence.

**3.2 Permitted dealings**

Plantings of Bollgard 3 were undertaken under a Technology User Agreement (TUA), which sets out the conditions for planting and growing a cotton crop containing Bollgard 3 technology. To be eligible to sign such an agreement, a grower is required to attend an accreditation and training program. In the 2021/22 season, all Bollgard 3 cotton planted was managed under the Bollgard 3 RMP.

**3.3 Trial/Research Crop Volumes by State**

State	Trial/Research Bollgard 3 Area (Ha)
NSW	165.1
<b>Total Trial Bollgard 3 Area planted</b>	<b>165.1</b>

*Note – Total Bollgard 3 figure includes Bollgard 3 Roundup Ready Flex only.*

### **Scope of the Report –**

This report addresses the annual reporting conditions of the DIR118 commercial licence for the release of GM herbicide tolerant (Roundup Ready Flex® MON 88913) pima cotton in Australia, issued to Monsanto Australia Proprietary Limited by the Office of the Gene Technology Regulator (OGTR).

This report details compliance with the general and specific conditions of sections 2 and 3 of the DIR118 licence as issued to Monsanto on the 16 August 2013.

This report covers the period of time between the 1 July 2023 and 30 June 2024, which includes the 2023/24 cotton growing season.

## **Section 2 – General Conditions**

### **Duration of the Licence**

DIR118 has not been cancelled, suspended or surrendered.

### **Holder of the Licence**

Monsanto Australia Proprietary Limited (Monsanto) is the holder of the licence.

### **Project Supervisor**

██████████ is the project supervisor.

### **Persons covered by this licence**

All persons covered by this licence are all persons in Australia.

### **Informing people of their obligations**

Monsanto Australia Proprietary Limited informs all GM herbicide tolerant (Roundup Ready Flex® MON 88913) pima cotton growers covered by the DIR118 licence of the obligations imposed on them as a result of the conditions of this licence. This is primarily achieved through Monsanto grower training which includes information on regulatory obligations.

### **Licence holder to notify of circumstances that might affect suitability**

During the reporting period, Monsanto Australia did not receive a relevant conviction occurring after the commencement of this licence; nor was there any revocation or suspension of a licence or permit held by Monsanto Australia Pty Ltd under a law of the Australian Government, a state or a foreign country, being law relating to the health and safety of people or the environment; or any event or circumstance occurring after the commencement of the licence that would affect the capacity of Monsanto to meet the conditions of the DIR118 licence. Monsanto acknowledges that it must provide information related to their ongoing suitability to hold a licence when requested.

### **People dealing with the GMO must allow auditing and monitoring of the dealing**

Monsanto acknowledges that if a person is authorized by this licence to deal with GMOs and a particular condition of this licence applies to the dealing by that person, the person must allow the Regulator to enter premises where the dealing is being undertaken for the purposes of auditing or monitoring the dealing.

### **Remaining an accredited organization**

At all times, Monsanto remained an accredited organization and complied with the conditions of the accreditation as set out in the OGTR guidelines for accreditation of organizations.

### **Additional Information given to the Regulator**

During the reporting period, Monsanto did not become aware of additional information as to any risks to the health and safety of people, or to the environment, associated with the dealings authorized by the licence; or of any unintended effects of the dealings authorized by the licence.

### **Section 3 – Growing the GMO**

#### **3.1 GMOs covered by this Licence**

The only dealings with GMOs under this licence were those with the GMO described in attachment A of the DIR118 licence.

#### **3.2 Permitted Dealings**

During the period of this report, only dealings with the GMO authorized were permitted.

#### **3.3 Volumes of GM herbicide tolerant (Roundup Ready Flex® MON 88913) pima cotton grown in each State and Territory - Summary**

<b>STATE</b>	<b>Commercial Total ha</b>	<b>Trial Total ha</b>
<b>Victoria</b>	0	0
<b>New South Wales</b>	0	0
<b>Western Australia</b>	0	0
<b>Queensland</b>	0	0

### **SCOPE OF THE REPORT**

This report addresses the annual reporting condition of the DIR066 commercial licence covering Roundup Ready® cotton, Roundup Ready® Flex cotton and the Bollgard II® trait issued to Monsanto Australia Proprietary Limited by the Office of the Gene Technology Regulator.

This report details compliance with general and specific conditions of Sections 2 to 6 of the DIR066 licence as issued to Monsanto Australia Proprietary Limited on 26 October 2006, and as varied 22 December 2006, 6 December 2007, 15 April 2009 and 20 June 2013.

This report covers the period from 1 July 2023 to 30 June 2024, including the 2023/24 cotton planting season.

**SECTION 2. LICENCE CONDITIONS**

**Condition 1. Duration of Licence;** DIR066 has not been suspended, cancelled or surrendered.

**Condition 2. Holder of Licence;** Monsanto Australia Proprietary Limited (Monsanto) remains the holder of the licence.

**Conditions 3 and 4. Project Supervisor;** The project supervisor is [REDACTED]

**Condition 5. No dealings with GMOs except as authorized by this Licence;** Persons covered by the licence did not deal with GMOs except as expressly permitted by the licence.

**Conditions 6 and 7. Location;** The licence allows for dealings with GMOs to be conducted anywhere in Australia. This licence supersedes any previous licences regarding location.

**Conditions 8 and 9. Persons covered by this GMO Licence;** Monsanto acknowledges that the persons covered by the licence are the licence holder and employees, agents or contractors of the licence holder and other persons who are, or have been, engaged to undertake any activity in connection with GMOs grown in a location pursuant to this licence.

**Conditions 10 and 11. Informing people of their obligations;** DIR066 was issued in October 2006, permitting dealings with the GMOs to be undertaken during the cotton growing seasons.

Monsanto Australia Proprietary Limited informed all persons covered by the DIR066 licence of the obligations imposed on them as a result of the conditions of the licence. This was primarily achieved through the Monsanto accreditation program, which includes information on regulatory obligations as well as management of the crop.

Accreditation programs require all persons having management responsibility for Roundup Ready (no longer sold commercially), Roundup Ready Flex and Bollgard II (no longer sold commercially) cotton crops to undergo training.

**Condition 12. Applicant to notify of circumstances that might affect suitability;** During the reporting period, Monsanto Australia Pty Ltd did not receive a relevant conviction occurring after the commencement of this licence; nor was there any revocation or suspension of a licence or permit held by Monsanto Australia Pty Ltd under a law of the Australian Government, a State or foreign country, being a law relating to the health and safety of people or the environment; or any event or circumstance occurring after the commencement of this licence that would affect the capacity of Monsanto to meet the conditions of the DIR066 licence.

**Condition 13. Licence holder must provide information on matters related to suitability;**

Monsanto acknowledges that it must provide information related to its ongoing suitability to hold a licence when requested to do so in writing by the Regulator and must provide information within a time period stipulated by the Regulator.

**Condition 14. People dealing with the GMOs must allow auditing and monitoring of the dealing;**

Monsanto acknowledges that if a person authorized by this licence to deal with GMOs and a particular condition of this licence applies to the dealing by that person, the person must allow the Regulator, or a

person authorized by the Regulator, to enter the premises where the dealing is being undertaken, for the purposes of auditing or monitoring the dealing.

**Condition 15. Remaining an Accredited organization;** At all times, Monsanto remained an accredited organization and complied with conditions of accreditation as set out in the OGTR Guidelines for Accreditation of Organisations.

**Conditions 16 - 19 Additional information must be given to the Regulator;** During the reporting period, Monsanto did not become aware of any additional information as to any risks to the health and safety of people, or to the environment, associated with the dealings authorized by this licence; or of any unintended effects of the dealings authorized by this licence.

**Condition 20. Compliance Management Plan A** Compliance Management Plan was provided to the Regulator on issuance of the DIR066 licence.

### SECTION 3. GROWING THE GMOS

#### 3.1 GMOs covered by this licence

The only dealings with GMOs under this licence were those with the GMOs described in DIR066 Licence.

#### 3.2 Permitted dealings

Sales and planting of the Roundup Ready Flex (RRF), Bollgard II (BGII) and Bollgard II stacked with Liberty Link® (BGIIwLL) are undertaken under a Technology User Agreement, which sets out the conditions for planting and growing a cotton crop containing RRF and BGII technology. To be eligible to sign such an agreement, a grower is required to attend an accreditation program and pass a test based on the material covered in the accreditation program. Roundup Ready cotton has been removed from the market in Australia and cotton containing Bollgard II (BGII) technology is no longer being sold commercially in Australia.

### Scope of the Report

This report addresses the annual reporting conditions of the DIR020 commercial licence for the general release of Roundup Ready canola in Australia, issued to Monsanto Australia Proprietary Limited by the Office of the Gene Technology Regulator (OGTR).

This report details compliance with the general and specific conditions of sections 1 and 3 of the DIR020 licence as issued to Monsanto on the 19 December 2003 and as varied on the 15 April 2009, 28 September 2010 and 20 June 2013.

## **This report covers the period between the 1 July 2023 and 30 June 2024.**

### **Section 2 – General Conditions**

#### **Duration of the Licence**

DIR020 has not been cancelled, suspended or surrendered.

#### **Holder of the Licence**

Monsanto Australia Proprietary Limited (Monsanto) is the holder of the licence.

#### **Project Supervisor**

[REDACTED] is the project supervisor.

#### **No dealings with GMOs except as authorized by this licence**

Persons covered by the licence did not deal with GMOs except as expressly permitted by this licence.

#### **Persons covered by this licence**

All persons covered by this licence are all persons in Australia

#### **Informing people of their obligations**

Monsanto Australia Proprietary Limited informed all canola growers covered by the DIR020 licence of the obligations imposed on them as a result of the conditions of this licence. This was primarily achieved through the Monsanto accreditation program and information course, which includes information on regulatory obligations as well as crop management practices. This is also achieved through legal agreements with each trading entity who plants Roundup Ready canola. The Monsanto accreditation program requires all persons involved in the management responsibility for Roundup Ready canola crops to undergo training.

**Licence holder to notify of circumstances that might affect suitability**

During the reporting period, Monsanto Australia did not receive a relevant conviction occurring after the commencement of this licence; nor was there any revocation or suspension of a licence or permit held by Monsanto Australia Ltd under a law of the Australian Government, a state or a foreign country, being law relating to the health and safety of people or the environment; or any event or circumstance occurring after the commencement of the licence that would affect the capacity of Monsanto to meet the conditions of the DIR020 licence.

Monsanto acknowledges that it must provide information related to their ongoing suitability to hold a licence when requested to do so in writing by the regulator and must provide the information within a time frame stipulated by the regulator.

**People dealing with the GMO must allow auditing and monitoring of the dealing**

Monsanto acknowledges that if a person is authorized by this licence to deal with GMOs and a particular condition of this licence applies to the dealing by that person, the person must allow the Regulator to enter premises where the dealing is being undertaken for the purposes of auditing or monitoring the dealing.

**Remaining an accredited organization**

At all times, Monsanto Australia Proprietary Limited remained an accredited organization and complied with the conditions of the accreditation as set out in the OGTR guidelines for accreditation of organizations.

**Additional Information given to the Regulator**

During the reporting period, Monsanto did not become aware of additional information as to any risks to the health and safety of people, or to the environment, associated with the dealings authorized by the licence; or of any unintended effects of the dealings authorized by the licence.

**Section 3 – Growing the GMO**

**3.1 GMOs covered by this Licence**

The only dealings with GMOs under this licence were those with the GMO described in attachment B of the DIR020 licence

**3.2 Permitted Dealings**

During the period of this report, only dealings with the GMO authorized were permitted.

3.3 Commercial Crop Volumes by State in the 2024 growing season.

**Annual Report for DIR 021 for the year 1 July 2021 to 30 June 2022**

Dear Sir/Madam,

I refer to the requirements of the above licence, to provide the OGTR with an annual report by the end of September each year for the previous financial year.

This letter provides a consolidated report on activities under licence DIR 021 for annual reporting purposes over the period 1 July 2021 to 30 June 2022.

The following volumes of plantings were made of *Brassica napus* containing any of the approved events under DIR 021 in Australia during the stated period:

█ in New South Wales  
█ in Victoria  
█ Kg in Western Australia  
█ Kg in South Australia

The above plantings were both non-commercial and commercial in nature.

Commercial volumes by state are in the table below.

State	Volume (Kg)
NSW	█
VIC	█
SA	█
WA	█
QLD	█

Non-commercial plantings in Hectares by state are in the table below.

State	Hectares (Ha)
NSW	█
VIC	█
SA	█
WA	█
QLD	█

The recommended range of sowing rate 1.3 kg/Ha to 3 kg/Ha.

No adverse impacts, unintended effects, or new information relating to risks to human health and safety or the environment caused by the GMOs or material from the GMOs is available to report as a result of dealings with *B. napus* events under licence DIR 021.

If you require any further information, please do not hesitate to contact me [REDACTED]

Yours sincerely,

**DIR091 ANNUAL REPORT 2024**

Dear OGTR,

Since the issue of Licence No.: DIR 091 by the OGTR on 25<sup>th</sup> November 2009, Corteva Agriscience Australia Pty Ltd has had nil dealings with WideStrike™ Insect Protection Cotton in Australia.

As per licence condition 32, the following statements are made:

- a) No adverse impacts, unintended effects or new information relating to risks to human health and safety or the environment have been caused by or found in relation to WideStrike™ Insect Protection Cotton
- b) WideStrike™ Insect Protection Cotton has not been produced commercially in any state or territory in Australia since the issue of Licence No.: DIR 091 by the OGTR on 25<sup>th</sup> November 2009.
- c) WideStrike™ Insect Protection Cotton has not been produced for experimental purposes in any state or territory in Australia since the issue of Licence No.: DIR 091 by the OGTR on 25<sup>th</sup> November 2009.
- d) Nil WideStrike™ Insect Protection Cotton has been fed to livestock north of latitude 22° South in Australia.
- e) No research of the effects of WideStrike™ Insect Protection Cotton on non-target insect(s) has been conducted.
- f) No research on volunteer incidence of WideStrike™ Insect Protection Cotton in areas north of latitude 22° South after livestock feeding has been conducted.

Yours sincerely,

**Subject: Annual Report 2024- DIR 157**

To Whom it May Concern

In accordance with the License for dealings involving an intentional release of a GMO into the environment: DIR-157 (GM cotton - COT102 VIP3Aa19) # Condition 20, the licence holder must provide an Annual Report to the Regulator.

An Annual Report must include the following:

- (a) information about any adverse impacts, unintended effects, or new information relating to risks, to human health and safety or the environment caused by the GMO or material from the GMO;
- (b) information about the volumes of the GMO grown for commercial purposes, including seed increase operations, in each State and Territory for each growing season in the preceding financial year;
- (c) information about the volumes of the GMO grown for *non*-commercial (e.g. research) purposes in each State and Territory for each growing season in the preceding financial year.

*Syngenta 'license out' the COT102 trait to other companies to commercialize stacked combinations containing COT102 with other GM traits. Since **Syngenta does not cultivate GM Cotton - COT102**, as a stand-alone or stacked event product, in any volume, for **commercial** or **non - commercial** (research) purposes in Australia, information about volumes of GMO grown in Australia as supplied by Syngenta is not possible or applicable. It is expected any information related to volumes grown will be supplied to the OGTR via Annual Reporting, by those companies that commercially cultivate GM products containing COT102. Furthermore, Syngenta Australia Pty Ltd (Syngenta) is not aware of any new information on any adverse impacts, unintended effects, or other information related to the risks, to human health and safety or the environment caused by the GMO or material from the GMO.*

If you require further information, please contact me directly at [REDACTED]

Yours sincerely,

[REDACTED]

**DIR139 ANNUAL REPORT 2024**

As per licence condition 20, the following statements are made:

- (a) Information about any adverse impacts, unintended effects, or new information relating to risks, to human health and safety or the environment caused by the GMOs or material from the GMOs;

No adverse impacts, unintended effects or new information relating to risks, to human health and safety or the environment have been caused by or found in relation to Optimum GLY® Canola.

- (b) Information about the volumes of the GMOs grown for commercial purposes, including seed increase operations, in each State and Territory for each growing season in the period;

Optimum GLY® Canola seed has been produced commercially in Australia in the financial year 2023/2024:

NSW	██████████
SA	██████████
VIC	██████████
WA	██████████
QLD	████
TAS	████
ACT	████
NT	████
<b>TOTAL</b>	██████████

- (c) Information about the volumes of the GMOs grown for non-commercial (e.g. research) purposes in each State and Territory for each growing season in the period.

Optimum GLY® Canola has been produced for non-commercial (e.g. research) purposes in the following states and territories in the financial year 2023/2024. The areas grown in each state have been identified:

NSW	██████
SA	██████
VIC	██████
WA	██████
QLD	███
TAS	███
ACT	███
NT	███
TOTAL	██████

On behalf of Nuseed Pty Ltd,

This is the annual report for Condition 20 DIR155 for the relevant reporting period.

### DIR155 - Condition 20a

Nuseed continues to develop the regulatory package for NS-B50027-4 with studies required for deregulation in other world areas. There has been no new information pertaining to any adverse impacts, unintended effects or risks since the last update.

### DIR155 - Condition 20b

There were 0 hectares of NS-B50027-4 planted under DIR155 for commercial purposes in Australia during reporting period.

### DIR155 - Condition 20c

The table below shows the Research volumes of NS-B50027-4 planted under DIR155 over the course of 2023/2024.

State	Hectares
Victoria	
New South Wales	
Queensland	
South Australia	
Western Australia	

# DIR 158-Commercial Release of Safflower Genetically Modified for High Oleic Acid Composition

ANNUAL REPORT .....	4

**INTRODUCTION**

Super High Oleic Acid Safflower Event 26 and Event 40 were generated by transformation of the high Oleic acid breeding line M1582 with pCW732 T-DNA.

The Events have been approved for commercial release by the Office of the Gene Technology Regulator under Licence DIR158. In accordance with Condition 20, GO Resources must provide an Annual Report addressing the following:

- (a) information about any adverse impacts, unintended effects, or new information relating to risks, to human health and safety or the environment caused by the GMO or material from the GMO;
- (b) information about the volumes of the GMO grown for commercial purposes, including seed increase operations, in each State and Territory for each growing season in the period;
- (c) information about the volumes of the GMO grown for non-commercial (e.g. research) purposes in each State and Territory for each growing season in the period.

**ANNUAL REPORT**

In FY2024:

1. There were NO adverse impacts, unintended effects, or new information relating to risks, to human health and safety or the environment caused by Event 26 or Event 40 or material from the genetically modified organisms. [REDACTED]
2. [REDACTED]
