# OGTR Online Services Portal Registration Guide

## Registering for myID

Before registering for the OGTR Online Services Portal via myID, users need to have created a myID account.

Your myID is your digital identity and unique to you. Possessing a myID makes it easier to verify your identity and securely sign in to participating government online services.

To establish a myID you must specify the identity strength level. The **OGTR Online Services Portal** requires **Basic** identity strength, however 'Standard' identity strength myID accounts allow access to most other participating government online services.

For requirements to set up an account with basic identity strength, please see the setup instructions on the [myID website](#) or refer to our [myID Fact Sheet](#).
